Home Learning Summer Week 7

'Our Natural World' Challenges

English

Poetry Time

Poems often, but not always, contain rhyming words. These are words that have the same or a similar ending, for example cat and hat rhyme. Write down as many sets of rhyming words that you know, then play these rhyming word games
https://www.youtube.com/watch?v=3Cc1TL-0bXo
https://www.youtube.com/watch?v=cSPmGPIyykU
Read some poetry and identify the rhyming words. Can you write your own poem that rhymes?

Reading (On Going)

Try to read at least one book a day with someone in your house. If you haven't completed the **Reading Challenge** keep going!

Writing

Practise saying the alphabet forwards and backwards!

The letter this week is … **T t.**

Practise forming this letter correctly (you could do this with chalk outside or in shaving foam) and on the line.

(Handwriting sheets can be printed or used for guidance.)

How many words can you think of that begin with this letter? Say or write them down, ask an adult to test your spelling of the words you have thought of, or go to
https://www.phonicsplay.co.uk/#

Keeping a Diary (On Going)

Write or draw a diary telling me about what you have achieved each day or week. Remember to write the date!

Some Ideas of what you could include:
What games have you played?
Tell me about a kind thing you have done each day.
What learning activities have you completed?
What have you watched or listened to?
Photographs.

Maths

Data Handling (2 Weeks)

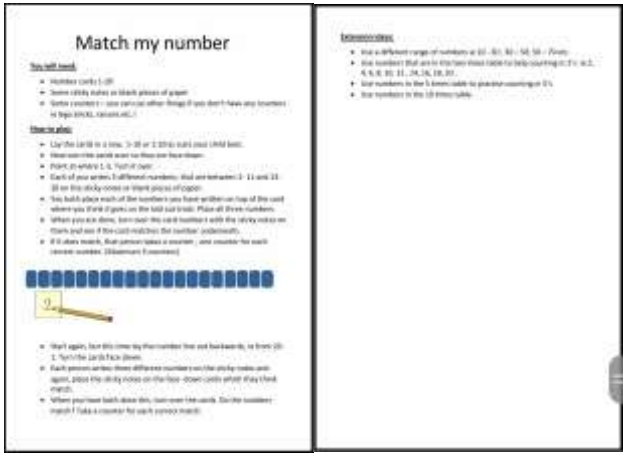
First, you need to collect some data (information) by playing the fishing game http://toytheater.com/fishing/# then answer the questions.

Now collect your own data, this could be different coloured flowers on a walk or cars you see from your window. You can write down the whole number you see or keep a tally. Remember for a tally four lines then close the gate!

With the data you have collected make a pictogram, like on the fishing game. Numbers should go up and the information you have collect e.g. different colours along the bottom of your graph. Ask someone in your house some questions about the information you have collected, are they correct?

Number

The number challenge from Mrs Brooke this week is…



Art

Mrs Brooke has set you an art project!

Get creative and make a fish, whale or sea creature from a plastic bottle that you would have recycled. You could make more than one, a family of fish!

Understanding the World

Tom The Traveller
Tom has been very busy putting together activities for you. Each week choose one of two of the activities and complete. Can you complete all the activities this half term?

Recycling helps stop plastic and other waste entering the ocean. This week is World Ocean Week. Oceans are a big part of the natural world covering 71% of the Earth's surface. There are 5 oceans in the world, can you name them? Watch a Whale's Tale to see how recycling helps
https://www.youtube.com/watch?v=xFPoIU5iiYQ

Me in the World

Look at the **Home Learning Bingo** and **Outdoor Home Learning Bingo** instructions. Over this half term see how many of the challenges you can complete!

KEEP ACTIVE
Try and do 30 minutes of exercise a day! This could be a walk, run or a Joe Wicks PE workout. You could still get **Physical with your Name** or do any other exercise you enjoy.
