

The Forest School
Every Child Every Chance

School Development Plan 2018-2019

Objectives for The Forest School	
Objective 1	All lessons will be effectively differentiated to allow all children to access the learning within their zone of proximal development; this will include effective, relevant and purposeful communication strategies relevant to each child
Objective 2	Personalised learning targets which lead to EHCP outcomes will be embedded within planning and our assessment system will monitor the progress towards these outcomes. This will mean that the children make more progress towards the longer term EHCP outcomes
Objective 3	Teachers will use assessment data on an ongoing basis to identify areas where children are not making enough progress and will ensure that timely interventions are implemented to secure enhanced progress. Students will be entered for external accreditation
Objective 4	To develop the skills in teaching assistants across the school so that they can further support learning – particularly in understanding children’s behavior (by implementation of the PIP) and developing literacy
Objective 5	Leadership at all levels will be developed so that the school has a sustainable and affordable staff structure in place
