

## Week 1

Begin by looking at the PowerPoint to see if you can guess where each destination is (get the whole family involved if you wish). Make sure you click on the play slide show button at the bottom corner of the screen (see picture below) to make sure you do not give the answers away.

When you have done this complete the following activities.

### Activity 1

Use an atlas, a map of Britain if you have one or google maps to locate where each of the destinations are on the British Isles.

### Activity 2

Use the internet to find at least one type of human and physical geography from each place.

### Activity 3

Find out three facts about each destination. You could then read these out to other people in your family. See if they can guess which of the coastal destinations that the facts are about.
