

Week 2

Begin by looking at the PowerPoint about the coastal resort of Scarborough. If you have been before then you can try and remember if you have seen any of the places photographed.

Activity 1

Complete the activities as you go through the PowerPoint. Feel free to put a picture of your poem onto the schools Facebook page.

Activity 2

Look at the Features of the Seaside worksheet (choose the one that you wish to do). Label the features and then research whether any of these can be seen in Scarborough, including any other features that you will find in Scarborough.

Activity 3

Complete the physical geography picture glossary. You can use blank pieces of paper to draw these onto if you wish.
