Art activities and ideas

In art this week you could have a go at making some mini-beasts using pebbles.

There are some ideas for this on the Twinkl website under the heading of 'Spring Activity Pack'

If you don't have access to Twinkl it is quite simple to make a mini-beast pebble bug

1. Find a suitable pebble
2. Paint the pebble, you can choose what colour you paint it depending on your mini beast
3. Put on some goggle eyes or paint on some eyes
4. Use pipe cleaners for legs or wings if your beast has wings
5. Enjoy your mini beast

Hand printed butterfly

This is a nice activity when painting in the kitchen – it can get a bit messy!

v

You just need to fold the paper in half and print your hands on either side of the fold.

Or you can just print on one side of the paper and fold the paper over to make the other wings

This is a lovely activity to complement the story of the hungry caterpillar

Or you can try this idea too.

Paper Plate Ladybird

Here are some ideas on how to make a paper plate ladybird, or you could just use a circle of card and create your own.
