

Maths Activities

1.  We need to refresh our  money  knowledge!

Here are some ideas of how you could do this:

     
Make your own supermarket using food boxes from your kitchen.

    
Think about how much money you could get for your food items

    
Ask a grown up if they have any spare coins

     
Can you put the coins in order from smallest to largest?

      
Which coins would you need to make these amounts?

25p, 12p, 5p, 30p, 55p, 40p, 70p

   
Use the coins below to help you

2.

Play

some

money

maths

games

on Topmarks

There are lots of other board games you could play to help your maths knowledge too!
Here are some more ideas!

Monopoly

snakes and ladders

Connect 4

Jigsaws
