

British

Values

discussion

work.

This is

You will need an

adult

or another

young person

to talk to.

Remember - it is

ok

to have different

opinions!

18th-24th May

If you could live anywhere,

Where would it be?

The picture

is of a

design

by an

Italian

architect

called

Luca Curci.

Do

you

know

what

an

architect

does?

An architect

designs

buildings

Do

you

like

this

building

design?

Do

you

think

it's

important

for our

homes

to

look

nice?

## What is the Link Project?

The Link is a design for a vertical city made up of four towers joined together.

The architects describe it as 'a self-sustainable city-forest that will produce oxygen for cleaner air.'

The Link will also control the temperature and lighting system for all who live there.

## Architect, Luca Curci's, design for the Link City-Forest

## Interesting facts about the project...

There is space for over 2 million plants to grow to help improve air quality.

Each tower will have many facilities including, swimming pools, social clubs and markets.

The tallest tower, is designed to house all the 200,000 residents and will have 300 floors!

## What are the aims of the Link?

The Link project aims to improve the overall quality of life by promoting sustainability, smart city technology and tackling the rise of urban sprawl (when cities and towns grow very quickly without thinking about the local area).

?    
Would you like to live at The Link?

?  ?   
How is it different from how you live now?

?     
Can you think of any benefits to living there, or downsides?

?    
Are there any benefits to the world?

Watch

this week's

useful

video

which also

shows

Luca's

designs

for a

very different

city.

<https://bit.ly/2KXsw38>

Do

you

think

this

might

be

what

new

homes

could

look like

in the future?

If you designed a house, what things would be important to you?

Where

would

your

house

be?

Would

it

be

in

a

busy

city,

or somewhere

quiet?

Why?

People

around the

world

live

in a wide variety of

places

and types of housing.

There are many different reasons why people live where they do;

to be near to family or friends, for work or just because they are

happy living there!

# British Values

18th-24th May

## Respect

We all live in different homes in different communities. It's important to show respect for the choices people make and the homes that they live in.

Optional

follow up

idea

Design

your

dream

home!

Think about:

Its location.

What

type

of

home

will it

be?

A

tree house,

boat,

bungalow,

caravan,

castle?

What will the exterior look like?

Size, shape, colour?

What will the interior look like?

The layout, colours,

**123**

number of rooms?

Create your design using labelled diagrams and short descriptions.

Challenge – can you create a bird's eye view drawing

(floorplan) of the interior design?
