

Me in the World

In your learning pack this week, I have included a simple pizza recipe. It's called Lovely Ladybird Muffin pizzas. It would be great if you could make one of these pizzas with the help of your parents/carers. They sound delicious and if you don't like olives you can use baby tomatoes to make the spots.

Expressive Arts and Design

This week, I am giving you a few different pictures of minibeasts. It would be lovely if you colour them in for me. Some of you may be able to follow the code to colour in the different parts of each minibeast. It would be great if I could see them.

Mathematics

This week we shall be using the pictures of Connor the caterpillar to decide which caterpillars are longer or shorter than Connor. You may need help from your parents/carers to cut out the different lengths of caterpillar.

Understanding the World

It would be lovely if you could go on a minibeast hunt in your garden. Can you think where you might find different minibeasts? In your pack there is a sheet for you to use to connect the correct insect with the correct place where it lives.

COMMUNICATION AND LANGUAGE

This week, I should like you to use your own means of communication e.g. speech, Makaton or PECS to tell your parents/carers, at bedtime, something that you have done each day.

Literacy

This week I would like you to listen to the book Mad Minibeasts on you Tube. In your pack there are sheets for you to write down something about each of the insect pictures. Perhaps some of you could tell your parents about what you can see in the pictures and they will write it down for you. Other children will be able to have a go at writing their own sentences.

Physical Development

This week, I'd like you to have a go at doing Enzo the Bee Cosmic Kids Yoga on You Tube. It's really good fun! Doing some exercise every day is really good for us it keeps us fit and healthy!!
