

Me in the World

This week we are continuing to think about keeping ourselves healthy!! It is important to eat at least 5 portions of fruit and/or veg every day. Also to keep our body's healthy we need to drink lots of water (especially when the weather is hot) and get enough sleep. With the help of your parents carer can you fill in the healthy living diary to see if you have a healthy week!!

Expressive Arts and Design

This week, as we are learning about Jungles, I'd like you to colour in some of the lovely jungle animal pictures. Take your time. Enjoy using your crayons or pens. Whilst you are colouring in the pictures try to imagine what it would be like in a Jungle - what sounds would you hear?

Mathematics

This week we shall be learning about length again. I should like you to compete the colour the animals by size activity.. Which is the shortest and which is the longest? Can you order the pictures from shortest to longest? Ask an adult for help when cutting out the pictures. This week we are thinking about using this maths vocabulary: long, short, longer, shorter, longest and shortest.

World
Summer
Challenge week 6

Understanding the World

Lots of different animals live in the Jungle. I have saved a Jungle Powerpoint on the school's web site which will give you some facts about Jungles. Don't worry if you can't see it, but have a look at the work sheet and see if you can guess where each of the different animals lives in the jungle.

COMMUNICATION AND LANGUAGE

This week, I should like you to use your own means of communication e.g. speech, Makaton or PECS to retell the story of Walking through the Jungle to your parents or carers. You can sign or do the actions for the different animals too.

Literacy

This week I would like you to listen to the story of Walking through the Jungle. It's a story about a little boy who hears lots of different animal sounds in the jungle. After you have listened to the story, can you make a list of all the different animals from the story? Some children can write the words independently, others can copy the words or draw a picture.

Physical Development

This week, I'd like you to have a go at doing some of the Joe Wicks challenges. I have given you some challenge cards. The activities are: marching on the spot, star jumps, low sprint shuffles, squats and a task called climb the rope. Good luck!
