

Write & illustrate your own comic

Think:

Who- what will the characters look like?

What- what will happen?

Where- where is your story set?

Use the comic strip template to help you.

Get Active!

Try and do at least 30 minutes of exercise a day.

Gloop!

Mix cornflour with water until you have a gloopy consistency.

- Tap the gloop
- Quickly roll some gloop into a ball
- Let go of the ball and notice what happens

Think- does it feel like a solid or a liquid?

(This is how sinking sand works.)

Doubles

Find different objects around the house e.g. pasta, cereal, lego bricks. Use these to practice doubling by laying out 2 groups of the same amount of objects. For example, make 2 groups of 3. How many altogether?

Time: my day

Last week we recapped our knowledge on the days of the week. This week let's look at our day.

Think about how your day is structured. Your morning might look like this: wake up, go to the toilet, get dressed, have breakfast, brush your teeth.

Think about the parts of your day which happen at the same time everyday. For example, when you wake up, have breakfast, lunch, dinner and go to bed may happen at the same time everyday. Notice where the hands on the clock are at these times.

Complete the "Getting Up" sequencing activity.
