Part A: Pupil premium strategy plan

Statement of intent

The aim of our PP strategy plan is to identify and implement strategies that help disadvantaged pupils reach their potential and achieve the best outcomes possible, to increase their social mobility and to make a positive contribution in their community.

We place a strong emphasis on supporting the development of the whole child, by focusing on their individual targets linked to their educational health and care plan (EHCP). In doing so, we acknowledge the importance of developing skills in literacy, numeracy, communication, emotional understanding and resilience and independence as being fundamental in preparing children for life beyond school.

At the heart of our approach is high-quality teaching focused on areas that disadvantaged pupils require the most, targeted support based on robust diagnostic assessment of need, and helping pupils to access a broad and balanced curriculum. Although our strategy is focused on the needs of disadvantaged pupils, it will benefit all pupils in our school where funding is spent on whole-school approaches, such as high-quality teaching. Implicit in the intended outcomes detailed below, is the intention that outcomes for non-disadvantaged pupils will be improved alongside progress for their disadvantaged peers. We will also provide disadvantaged pupils with support to develop independent life and social skills and continue to ensure that high-quality work experience, careers guidance and further education guidance is available to all. Our strategy will be driven by the needs and strengths of each young person, based on formal and informal assessments, not assumptions or labels. This will help us to ensure that we offer them the relevant skills and experience they require to be prepared for adulthood. In deciding how to use our Pupil Premium Grant, we draw upon the following sources:

- *Education Endowment Foundation Teaching and Learning Toolkit*
- *Our combined professional experience of what works best for children with SEND*
- *The skills and knowledge of our multi-agency partners, e.g. Speech and Language Therapists*

Challenges

This details the key challenges to achievement that we have identified among our disadvantaged pupils.

Challenge number	Detail of challenge
1	<p>Communication</p> <p>We recognise that pupils generally have greater challenges around expressing and communicating their needs than their peers, including non-verbal, limited language and social interaction difficulties. These challenges are exacerbated by the restrictions over the period of the pandemic.</p>
2	<p>English and maths</p> <p>We recognise that our pupils struggle to acquire basic literacy skills because of their cognition and learning needs. We recognise that research indicates disadvantaged pupils are more likely to have poor literacy skills.</p>
3	<p>Social, emotional and mental health</p> <p>We recognise the impact that disadvantage can have on pupils' social, emotional and mental health.</p>
4	<p>Behaviour</p> <p>We recognise that pupils who have unmet needs may sometimes express themselves behaviourally. We also recognise that this may pose a challenge for the adults who support the pupils.</p>
5	<p>Attendance</p> <p>We recognise that attendance is lower for disadvantaged pupils, and this has an impact on their ability to access learning opportunities and make good progress.</p>

Intended outcomes

This explains the outcomes we are aiming for **by the end of our current strategy plan**, and how we will measure whether they have been achieved.

Intended outcome	Success criteria
Improved progress with individual communication targets, compared with previous year.	<ul style="list-style-type: none"> oPupils will be more effective communicators. We recognise this will look different for different pupils.
Improved English and Maths skills.	<p>Staff can teach phonics and early reading effectively, with a consistency of approach across school.</p> <p>Pupils will develop a love of reading, which will positively impact on other areas of the curriculum.</p> <p>Pupils will make greater progress.</p>

<p>Improved emotional wellbeing for pupils.</p>	<p>Pupils will be emotionally secure and will have a range of strategies to self-regulate more effectively.</p>
<p>Adults will understand the functions that behaviour serves and recognise that behaviour is a form of communication.</p> <p>Adults will have an enhanced repertoire of skills for supporting pupils who display behaviours that challenge.</p> <p>Adults will have relevant, evidence-based training to support their responses to behaviours that challenge.</p>	<p>Pupils will display more socially valid behaviours.</p> <p>The frequency of behavioural incidents will reduce over time as measured by the school reporting system.</p>
<p>Improved attendance.</p>	<p>Pupils will have increased access to learning opportunities and will subsequently make greater progress.</p>

Activity in this academic year

This details how we intend to spend our pupil premium (and recovery premium funding) **this academic year** to address the challenges listed above.

Part B: Review of outcomes in the previous academic year

Pupil premium strategy outcomes

This details the impact that our pupil premium activity had on pupils in the 2022 to 2023 academic year.

Overall Gaps between PP and Non PP are showing that all aspects of the PPG are having a positive impact.

Attendance for PP 89.3% and non PP is 89.6%.

Progress for pupils is showing that there is no significant gap between PP students and non PP students.

EHCP progress (PP - 93% and non pp is 93%)

Maths Progress (PP- 97% and non pp is 96%)

English progress is (PP 97% and non PP is 96%)

All Year 11 pupils have appropriate Post 16 destinations that are being tracked and are successful

Outcomes for Year 11

Due to the nature of setting and the small numbers involved it is not a fair comparison to compare PP and non PP outcomes however all pupils on track to achieve formal qualifications did so (No PP pupil who could have achieved qualifications missed this opportunity)

Externally provided programmes

Please include the names of any non-DfE programmes that you purchased in the previous academic year. This will help the Department for Education identify which ones are popular in England
