

'Every Child Every Chance'

(The Forest School)

Introduction and Intent

In terms of achievement, we believe that the 'sky's the limit' for our pupils, the school aims for all pupils to reach their full potential.

Equally, the SEND Code of Practice states that 'with high aspirations, and the right support, the vast majority of children and young people can go on to achieve successful long-term outcomes in adult life'. Furthermore, it adds that education providers and their partners should work together to help children and young people to realise their ambitions in relation to:

- participating in society – including having friends and supportive relationships, and participating in, and contributing to, the local community (this is the focus of **Autumn 1 Transition and Change**, **Autumn 2 Seeking Support and Community** and the **Spring 1 Relationships** topics, including British Values and Citizenship learning, as detailed in the National Curriculum, ensuring broad and balanced experiences).
- being as healthy as possible in adult life (covered in our **Spring 2 Healthy Lifestyles** topic).
- higher education and/or employment – including exploring different employment options, such as support for becoming self-employed and help from supported employment agencies (planned inline with the Career Development Institute Framework and with reference to the Gatsby Benchmarks, which define world class careers provision, taught throughout the **Summer 1 Planning for Next Steps** topic).
- independent living – enabling people to have choice and control over their lives and the support they receive, their accommodation and living arrangements, including supported living (**Summer 2 Safety** is key to enable our pupils to be able to live as independent life as possible).

Pupils access their Futures and Independence learning in weekly lessons and in Key Stage 4 will have the opportunity to gain AQA certification.
